252,561,486	some suggestions. when i ignore an avatar and they have several in same account all should be put on ignore. this would force people to make new accounts and more money made by you. i would like to be able to still see the people i have on ignore due to the fact that i sometimes am dancing right on them. more clothes not winter ones in summer months . should be able to change the colors of the baseballs caps to one color if i want. less lost connections a DND button would be great so if i do not want people to talk to me i can put DND on (do no disturb ) this feature is on another game i play and its great . thank you for your time. Bellaluna		Sunday, Jun 27th 4:07PM
252,560,439	3DX is the best game of its kind on the net but so many bugs and too little updates. Stability is important of course but a pose and clothing editor would really be nice to at least keep the jungle quiet for a while ;)		Sunday, Jun 27th 2:39PM
252,542,072	From my viewpoint as a hetero male -- Often, when I pop into a room, most of the female avatars are either lesbian, taken (married/exclusive), or a Trans guy. In the last couple of weeks, it has been difficult to find a woman to have a conversation with. Let me state that I Am Very Glad that 3dx is wonderfully inclusive toward people who are bisexual, homosexual, trans, BDSM, dom/sub, etc!!! But, for many men here, that is not our cup of tea. I am seriously considering whether to renew or not (DanStone)		Saturday, Jun 26th 2:44PM
252,540,991	Communication from devs is nearly non existent. The Suggestion part of the forums is completely pointless The content update for male avi is trash level. Wouldn't recommend this game to other people in it's current state and management		Saturday, Jun 26th 1:53PM
252,538,818	I'd like more update (at least once in a month)		Saturday, Jun 26th 10:14AM
252,519,928	Important comment: Thank you for your hard-work!		Friday, Jun 25th 2:26PM
252,511,138	Why can't we get import options from editors like Blender for rooms or objects?		Friday, Jun 25th 4:23AM
252,509,813	The game is very good with lots of potential, I like the social side. it just needs some features (in terms of customizations for example), and a better communication from the developers.		Friday, Jun 25th 1:28AM
252,491,133	How about features such as auto speed variations during sex? Or sequencing sex moves? Moving right from dancing to sex. Carrying a person from place to place. Being able to click on furniture or names through walls. Room member list. Override a room that has names blocked.		Thursday, Jun 24th 3:38AM
252,484,320	Needs more bdsm		Wednesday, Jun 23rd 5:56PM
252,480,162	There is always a bit of disconnect between dev team and playerbase. But i feel like the polls on discord are rather pointless. The features that get top votes are not even in development, instead other things that are down the top points are. Example: Tails were the most voted thing, but we got bijouterie instead. Which is fine, its great, but people were begging for nipple / vaginal piercings for a long time now. And those are not shown on teasers so.. ^^ a bit of a letdown there.		Wednesday, Jun 23rd 2:21PM
252,468,805	It's a waste of time trying to communicate with 3DXChat's incompetent Gizmo & Lisa. They stopped caring years ago and it's why the game is so pathetically lacking content-wise. 3DXChat should be 100% free to play in my opinion.		Wednesday, Jun 23rd 12:43AM
252,468,549	We need more to do in game. We need more customization of our Avi's, We need Bug Fixes.		Wednesday, Jun 23rd 12:32AM
252,461,485	for the up above i said new features for game because overall i think it feels pretty stable. there aren't tons of bugs that i encounter. but for the most part i think you guys (devs) do a good job of fixing things that are bugged or don't work properly. something that just takes time and you guys continue to work on it and make it better. thank you for that. unlike other people i think you guys want to make it better and are continuing to do this. this has a bright future and i think you will see more and more people come to this game with more things to do ect..		Tuesday, Jun 22nd 6:18PM
252,459,119	You guys are really doing a great job.		Tuesday, Jun 22nd 4:34PM
252,447,529	I would really love for more content to be added for Male. Females always tend to get more stuff and it becomes unbalanced. If the game attracts men more, I feel they need the same level of content as women.		Tuesday, Jun 22nd 7:35AM
252,441,094	Overall, I am very happy with 3dx. It is a lot of fun and allowing independent creativity is an excellent idea. If there was a clothes editor, I'm sure that it would be very successful!		Tuesday, Jun 22nd 12:01AM
252,440,763	I'm a builder, I usually push for more advanced world editor features, but at this time I think the game is facing increased instability and bugs which need to be prioritized. Other than that, I love 3dx, keep up the good work!		Monday, Jun 21st 11:42PM
252,439,850	I think a pose editor would personally elevate this game to a level that nothing else can compete with, quickly followed with much more clothes options... ALSO PIERCINGS PLEASE!!!		Monday, Jun 21st 11:02PM
252,439,742	I would also like to see more clothing and hair options for male characters.		Monday, Jun 21st 11:00PM

252,438,458	I love 3dx chat in terms of its graphics, animation and avatars. It is a social game so mostly it's about interaction between avatars. So far I think devs has done a great job on game and I have been enjoy since I joined the game for 1 year and half. Knowing the team size behind this game, I think you guys are fantastic already. Maybe the complains comes when boredom kicks in, where not everyone is that social. More interactive objects or some mini games in game for peeps to earn golds is interesting and keep them busy :p Overall great job! ????????????????????????????????????	Monday, Jun 21st 10:05PM
252,436,561	Thank you for taking the time to listen to customer feedback	Monday, Jun 21st 9:07PM
252,435,683	The hair choices are pretty terrible for women. Would be nice to see some higher quality mesh hair.	Monday, Jun 21st 8:17PM
252,434,853	Have recently been kicked out of game, and when attempting to log back in, game and short cut are gone from laptop	Monday, Jun 21st 7:23PM
252,434,368	I am am in my 30s there are only two things that I would wear in this game and they are casual. nothing that i would go out for a night on the town with. I am fashion forward and into luxury brands but so is most of the population	Monday, Jun 21st 6:53PM
252,434,213	I feel like the game has good potential and strong points of being great. There are times where I feel like the devs aren't listening. If the discord server was open to more people talking I think this would help us a lot to get our message to the devs easier.	Monday, Jun 21st 6:39PM
252,434,068	More kink and fetish content should be available	Monday, Jun 21st 6:34PM
252,433,777	Where is not really an outlet for most people to give feedback	Monday, Jun 21st 6:17PM
252,433,690	Even tho the most avatar base is female.. try to just give something to male avatars.. like mroe fucking clothe options!	Monday, Jun 21st 6:07PM
252,433,104	Lace panties disappearing in water is bug too	Monday, Jun 21st 3:35PM
252,430,890	Not bad we got rings and earrings... but the pirated version got these years ago. and the stockings are just like those stockings from that server. maybe devs really need to focus on updating the game to beat the pirated server---which is the only way also. But hey... it's a good start ain't it?	Monday, Jun 21st 4:12PM
252,430,742	The communication has always not been one of the best, seriously consider improving that.	Monday, Jun 21st 4:10PM
252,430,445	As a male player it's mildly annoying when every update that comes out generally focuses on either women clothing or accessories. Additionally some male hair options that are shorter without being shaved would be nice as well.	Monday, Jun 21st 3:58PM
252,429,761	There's been somewhat of a lack of communication between updates. If we had the Dev's checking in more frequently and telling what their current projects, plans, and current goals, we could all feel at ease.	Monday, Jun 21st 3:24PM
252,428,405	Should just get moderators for your discord, across multiple time zones for better communication to the community the forums sort of work but that's such a small player based responding that discord is just so big everyone uses for most part at least a lot dedicated fans do. If you can hire an admin or two manage the moderators for you guys.	Monday, Jun 21st 2:42PM
252,428,189	the sweat/wet body as a clothes option out of the character editor would be nice. shine look like a body oiled, but i mean real sweat nipples piercing as showed months ago would be cool too, im waiting it af	Monday, Jun 21st 1:56PM
252,428,134	I'm generally satisfied with 3DX Chat, though greedily I believe we could always use more often updates and improvements as it breathes fresh life into the game. I think 3DX would also benefit from more hair options and more face types and face customization in general and also very important - maintaining, servicing and constantly improving the world editor, as it's the most important tool creative and talented people use to create the worlds and places we enjoy to meet up and spend a lot of time in.	Monday, Jun 21st 1:54PM
252,427,765	Please fix the breast physics issue!	Monday, Jun 21st 2:23PM
252,427,375	I have only been playing the game for about a month. My experiance is rather limited. Looking forward to what it has to offer in the future and new in game developments.	Monday, Jun 21st 2:07PM
252,427,297	Please make the Hat's turnable. Would be so nice to have them backwards :)	Monday, Jun 21st 2:06PM
252,426,714	Need to get back old Rochi mod to add print and colors to all chlothes, opacity slider, clock in top corner, sharing Xgold between users, boob more custom they look all same, Tv working to watch movie in rooms	Monday, Jun 21st 1:45PM
252,426,434	First, I have been a player on 3dx since Jan of 2020, and I am on pretty much every day. I think more avatar customization in either look (pointed ears, tails, wings, etc) and cloths/jewelry can only make the game more enjoyable. But I wanted to say something about your final question above. I have been on 3dx a year and a half and felt kind of like I was "out of touch" with developers until recently when I had a friend on 3dx tell me about 3dx discord server. I think you guys should advertise your discord in game somehow, so people know about it. I didn't even know about it. Now that I joined, I see what you guys are doing, and I can take this survey, and I just feel more a part of what's going on with something play pretty much every single day. I would suggest trying to advertise more, maybe in world, about the discord server and encouraging people to join to have a more active role in 3dx, if they want. Thanks for all you do :)	Monday, Jun 21st 1:24PM
252,426,338	maybe open a suggestion section in discord, limmit the post'n to like every hour or more to help prevent floods and dumbass's, do it on a test basis, let people know its a test, it proves to be too unruley just close it.	Monday, Jun 21st 1:30PM
252,426,323	I am figuring that if the ladies can get their breasts all jiggly, us men can get our cocks out of Viagra mode. Please provide a soft cock option, especially if we are just walking around. Also, the pose selections should be much more clearer. If a man wants to be with a shemale, then there should be shemale/male poses. This should be included in the pose menu options. M/F, M/M, Shemale/Male, Shemale/F.	Monday, Jun 21st 1:34PM

252,425,995	Please, you have men playing with men avatars. Please add content for them. When you add for the ladies, please think of us adding the male version. For example, I saw a couple of days ago that you will probably, add a ring and earrings. Some men wear rings (at least for the wedding it would make sense), as well as earrings or rings. Thanks in advance. More content, rp clothes, for both sexes would be nice. Finally your question: "Developers should focus on... "" is a bit disingenuous. We need both. That the bugs are solved is your problem and your work and more content.	Monday, Jun 21st 1:05PM
252,425,267	Hello, I am Aloce, I'm been playing for... I don't remember... 5 to 7 years? I miss a better communication, I understand things can be hard to do, but a few words from staff helps a lot to feel some situations better, so I understand some problems take time, please try to be there more often "with us". Finally, I think more updates more often is needed, even if the updates are very small, makes us feel the developers care a lot more about the game.	Monday, Jun 21st 1:00PM
252,425,176	Mostly covered with the above questions, but one thing if possible please add it, which is working TV in the game for viewing movies etc etc. But I must say whatever is done till now by the devs is pretty good and kudos to them.	Monday, Jun 21st 12:56PM
252,423,847	Developers should focus on both new features and bug fixes	Monday, Jun 21st 12:04PM
252,422,920	I have only been playing for a month but I have not found a lot of bug so, good job.	Monday, Jun 21st 11:31AM
252,421,754	0 communication, sad. I feel like the devs in this game should be closer to their community. It's a small game not like world of Warcraft. I think we can deal with the bugs but it's still important to fix them, they aren't that annoying (the clothes bug). Devs should really step up and focus on content. I think giving much more customisation options, not to the point of having so many like the sims, but maybe the possibility to have avatars that can be more fat, add tails for role players and more fetish poses. Feet, BDSM, adult nursing, leash. Also need soft cock, should be quick to implement	Monday, Jun 21st 10:42AM
252,421,690	I absolutely love this game and the community, im fine with how your handling things with bugs and it never ruins my experience though obviously would be nice if they were not there, i hope you know you guys really make a difference in a lot of peoples life's, thank you ♥️👍	Monday, Jun 21st 10:40AM
252,421,370	I like the fact that after the lovense update they started showing more things that they are working on. It's nice to see they are working on bringing new things to us.	Monday, Jun 21st 10:30AM
252,420,474	Developers should be more engaging with every person who joins 3dxchat not a selected few. especially those who have been playing for years. It seems some developers like to pick favorites and favoritism has not been good for planet Earth. If developers listen to every consumers feedback 3dxchat can be at the top when it comes to adult games. 3dxchat is #1 in my book and i can't wait to see it at #1.	Monday, Jun 21st 9:55AM
252,420,230	Its gotten a lot better showing updates and adding new stuff so its going into a great way	Monday, Jun 21st 9:51AM
252,420,190	Communication has definitely gotten better over the years, but still leaves things to be desired. The game still has many, and by now very old, bugs too that really would help a ton if they got fixed. The de-syncing being one of my personal top ones. And please add a nurse outfit, I can't believe the game still doesn't have a nurse outfit!	Monday, Jun 21st 9:29AM
252,420,051	I sent Lisa some recommandations from Discord and never got a response.	Monday, Jun 21st 9:33AM
252,419,782	but, commiunication is improving! Suggestion: make updates regular! like every month. Then do not push 20 new things in but less.. Advantage: - Less bugs to solve after a big update - Customers know an update is coming, it gives the feeling of an active development team. That enhenches game feeling :)	Monday, Jun 21st 9:30AM
252,413,023	I think the bugs and lack of a few of the things people have been asking for keeps this game from being what it ultimately could be. I think the Devs take advantage of the fact this is the best product out there and are lazy with addressing pressing issues like disconnects and desyncs in game. They're getting out of hand to be honest. Great game but could be soo much better in my opinion.	Monday, Jun 21st 12:38AM
252,409,440	There are a lot of M/M anal poses that are not available for M/F(MTF) that I'd really appreciate having. Also a better indication of F poses that would have me lose my dick - even better a preset on my profile to indicate such specifics and that subsequently all poses not corresponding to that setting would be disabled - or come with a clear warning, for the partner as well. Sex poses with kissing. Please stop seeing sex poses as pure porn poses, but more as human interaction poses. I wanne be kissed and touched while I get banged. ;) Being able to walk around hand in hand when you partnered someone. Rainbow knitted stockings since it's Pride month, come on! Decade inspired pieces of clothing to go to dance venues in a proper attire. Leg warmers, jeans overalls, slouch socks, leggings that reach mid-calf to wear under a skirt for the 80s; elephant pipes and sleeves, swing, flower power, jumper dresses for the 60s; flare trousers and bell-sleeves for the 70s.... A plaid skirt with blue in; a pair of those shorts you can change the color of (like you can with that one pair of jeans). More flat shoe options than just the sneakers, like nice sandals. Maybe boots that are calf height (cowboy boots) or biker boots. More short hair options with color shifts - love the pixie cut but it is old style, would be nice to get an upgrade on it with nicer texture and an option to colour the fringe part differently And PLEASE give the guys more clothes options at last.	Sunday, Jun 20th 7:55PM
252,398,404	Need in game mods.	Sunday, Jun 20th 1:08AM
