255,413,848	you need to put more clothes in the game game positions too but what's most lacking are clothes , clothes in general		Friday, Oct 1st 4:18AM
255,392,982	I come back for more content, more clothes/poses/body options please		Thursday, Sep 30th 4:55PM
255,321,792	Please allow some settings i, as a femboy need to do every time now, to be set up with a default value in settings or profile (the penis option). Same for sex poses - those that would have my dick disappear should be flagged clearer for both partners, or that i want them to be disabled for me and my partner. Please provide the same anal sex poses for transgender/femboy f/m as for m/m. Also walking hand in hand with your partner and more sex poses that include kissing and touching, and another variation on slow dancing that isn't so static would be appreciated. And super please the soft dick option. Also, give the lads some decent clothing at last.		Wednesday, Sep 29th 1:47PM
255,262,118	The since years not fixed bugs and not fixing new bugs which come with nearly every new update is an unbelievable brazenness. 3DX will be at its end as soon as there is another similar product.		Tuesday, Sep 28th 7:56PM
255,213,017	love ya!		Sunday, Sep 26th 9:26AM
255,175,112	Still the best VR game I have ever been in :)		Monday, Sep 27th 6:08PM
255,126,885	WE NEED AN UPDATE. THESE SURVEYS DO NOTHING AND DEVELOPERS AREN'T GIVING ANY INFO!		Sunday, Sep 26th 10:08PM
255,119,869	It's been months since we last heard from the devs.... We pay for the service and they offer fuck all updates or news, other than pushing their Lovense crap that honestly I don't even remotely care for. How can someone bring in this much money, and then not actually do anything with any of it? It's an absolute joke.		Sunday, Sep 26th 7:46PM
255,113,418	After all everything was good		Sunday, Sep 26th 1:14PM
255,112,994	Needs bdsm		Sunday, Sep 26th 12:43PM
255,111,278	Poses and customization options were announced months ago and we still have nothing and no word on it. Unacceptable. The lack of updates is making the game boring.		Sunday, Sep 26th 10:32AM
255,110,080	Been months again for updates - IT'S TIME Again		Sunday, Sep 26th 8:55AM
255,106,681	My game rating was lowered since the last time from 4 to 3 as game gets worse in my eyes. I'm having a lot less pleasure from being here, actually there is hardly ever any pleasure. I often have to chase things out an hope for the best and with someone who has (-2) luck modifier is kinda difficult to do so ldk. what kind of people game is attracting or would attract but it deffinitley isn't the bunch that we want around here. I voted 3 in terms of communication with players as you actually did something after this type of votes came out for the first time, hope you wake yourself up once more... Fight German & Italian racists/fashists (they are here, still), more poses and less FUTA shit!		Sunday, Sep 26th 2:25AM
255,105,682	Everyone I have talked to including myself feels that updates are not coming very frequently. They wish they would see more of those		Sunday, Sep 26th 12:51AM
255,075,244	You haven't had an update since may... people stop playing after that long.		Friday, Sep 24th 10:16AM
255,074,005	Could we please have some more communication between devs and players, that's really all we ask for! Even if it is once a week to say "we are still working on update" and a little teaser, that would keep everyone happy! :)		Friday, Sep 24th 9:17AM
255,072,363	seems like all you guys care about lately is organising events		Friday, Sep 24th 7:39AM
255,061,114	Overall my experience is much better and would just like to see new content now with less wait times. At least once a month seems fair		Friday, Sep 24th 12:02AM
255,055,225	You really need to add more stuffs in the games clothes, accesories more body options and please more communication with players ...		Thursday, Sep 23rd 7:49PM
255,054,925	Teasing content that seems as good as finished but not releasing it for a couple of months and instead focusing on sponsored events is very annoying and tiresome for paying players.		Thursday, Sep 23rd 7:35PM
255,050,529	Has not updated in far too long		Thursday, Sep 23rd 5:49PM
255,043,558	The devs really need to improve their communication to the player base. And get more updates rolling more frequent and if that's not possible, make the game free or give away more free game time because i dont think people will continue their subscriptions when nothing is happening to the game		Thursday, Sep 23rd 3:46PM
255,032,907	want to see more stuff like it is in Meredian and Intima =)		Thursday, Sep 23rd 11:54AM
255,032,892	Please consider making pose editor and clothes editor. Playerbase will create perfect content for themselves. As long as its a bit moderated it will be a HUGE benefit, im sure tons of new players will join. And those that are playing will keep playing without feeling the game getting stale with slow dev updates.		Thursday, Sep 23rd 11:54AM
255,032,413	Pls pls make pose editor / clothes editor. It will open a whole new world of possibilities for players to have fun :)		Thursday, Sep 23rd 11:28AM
255,031,753	the ability to leave rooms open when off line,		Thursday, Sep 23rd 10:57AM
255,030,599	Need quicker updates! It is not possible to wait months, just to get one animation and a few clothes!		Thursday, Sep 23rd 10:03AM

255,030,154	Communicate with your community. Use the discord more. Update people on the development of new things. Don't keep us in the dark, wondering if you guys vanished.	Thursday, Sep 23rd 9:36AM
255,029,674	I wish we could see more updates, even small things with 1 pose and a new clothing item. Maybe bigger updates every 6 months or so with bug fixes and more game wide changes like: better profile customization, Auto accept poses, Better kink RP (editor options, clothes, poses) etc. With all the people playing paying month to month there should be more being done with the game. With this lovense partnership I'd hope we will see more from the #dxchat team.	Thursday, Sep 23rd 9:08AM
255,022,191	I am rarely heard so.	Thursday, Sep 23rd 3:30AM
255,021,841	doing ok with updates came out faster for the amount of money we have to pay to play	Thursday, Sep 23rd 3:19AM
255,014,448	You guys have not released any updates in four months. Please support your game rather than go on autopilot. What happened to the earrings? They looked so close to being done, but we've not heard anything from the developers in months. I'm sure you're sitting pretty on income from this game, but you could be making more with these small improvements.	Wednesday, Sep 22nd 10:49PM
255,010,724	we need boths, in Developers shoul Focus on why nor make a material caursel for closthsing, the options with the clothes, we allreday have would be way bigger, + make lingeri in series. a body stoking is not a dess, but and bra and panties option. a over all revork of the clothes we have would be nice too. over all #dxchat is the best game, when i comes to social sex games, the deelopment is slow, but it a cheap game to play. Find something we can spend xgold on to increase earning for game.	Wednesday, Sep 22nd 8:17PM
255,007,695	I would love if the devs would inform the playerbase more often about the stuff they are working on. But I like the new discord support	Wednesday, Sep 22nd 7:01PM
255,006,338	The lack of content has gone from disappointing, past annoying, to down right infuriating. The only reason I play now is to connect to certain people. But the lack of content is steadily driving people away. This means that soon, the last reason I stick around this game will no longer be a factor. DO YOUR JOB...	Wednesday, Sep 22nd 6:24PM
255,005,748	Maybe weekly or bi-weekly updates on what you are working on.	Wednesday, Sep 22nd 6:14PM
255,004,160	New/better sex noises would be nice, the current ones get annoying after a while.	Wednesday, Sep 22nd 5:36PM
255,004,083	It would be a whole lot better with more communication from the devs. Also, the desync issues have been pretty consistent for almost a year now. Before, they were very random cases, but now it is almost impossible not to have them, no matter in which location.	Wednesday, Sep 22nd 5:34PM
255,003,836	No communication between consumers and devs. Lack of updates; teasers of future updates were posted in may and seemed almost complete, yet theres been no sign of any updates since and/or the devs giving any sort of time scale to when the next update will be.	Wednesday, Sep 22nd 5:31PM
255,000,578	I do not experience many bugs at all and beleive that additional character options would enhance the game.	Wednesday, Sep 22nd 4:27PM
254,999,733	Please please talk more with your community. And consider adding more user content; let them do a lot of the work for you. They want to! It helps every aspect of the game. More options for players, more content for you, and it makes players more likely to resubscribe feeling like their work and input matters. -Furniture, Poses, Skins, Tattoo's, Hair, Clothes, Animations (?), etc can all be outsourced or at least some of them can (not sure on your code) without any major risk.	Wednesday, Sep 22nd 4:12PM
254,998,826	The developers are terrible when it comes to communication	Wednesday, Sep 22nd 4:05PM
254,997,381	There is no communication of the developpers towards the customers.	Wednesday, Sep 22nd 3:45PM
254,995,788	I love this game. But I really want the developers to make more updates. Very few updates lately. I with my friends are thinking that this game needs more cool updates. This game needs global updates!	Wednesday, Sep 22nd 3:11PM
254,992,448	The devs go from posting hints on updates to months of silence.	Wednesday, Sep 22nd 2:48PM
254,990,665	More up loads, pleaaaaase!!!!????????????????????????????	Wednesday, Sep 22nd 2:19PM
254,987,903	Amazing VR World. In RL people like to be unique, sex poses and interaction between avatars is great, but being able to modify your avatars body, face, hair, etc helps make one unique. Number of dancing moves should be increased, and categorized. There should be a speed slider for dance moves as there's on for sex moves. BerryGEM XoXo	Wednesday, Sep 22nd 1:56PM
254,987,735	I think the game is fine, but the patches and progress are way too long ... sometimes we have 1 patch per month with new poses and sometimes nothing for 6 months ... some things like plugs to add would be yet simple ...	Wednesday, Sep 22nd 1:58PM
254,987,176	I love the game but need to cater to all like us country people and give us some more clothing option. I started pushing country room and more and more room owners and builders have been jumping on board.	Wednesday, Sep 22nd 1:54PM
254,986,714	The meridian version of 3dx has more content than the actual 3dxchat..... maybe it's time to start working on giving us new content because the price we pay to support this game is getting harder to justify.	Wednesday, Sep 22nd 1:45PM
254,986,143	Lack of updates , no changes were made even if you took 2-3 surveys before . What a joke 3dx is	Wednesday, Sep 22nd 1:41PM
254,975,248	fuck the devs, they don't care about their game, why we pay them then? we want more feature, interesting one, clothes, poses, editor or social interactions, but not a sex toy commercial one with tons of glitch , fucking retards	Wednesday, Sep 22nd 10:57AM
254,974,900	Despite being advised on 3dx forum that an update was being created to remove rape content from the game it is still being hosted . As a mental health and victim support worker content like this can be harmful and is against the terms and conditions of the site itself . If this continues I will highlight this on social media with 3dx's business partners . I hope now the Lovense event has happened that the promise to remove this content is upheld	Wednesday, Sep 22nd 10:45AM
254,969,901	I NEVER HEAR MUCH ABOUT DELELOPERS . BE NICE IF THINGS COULD GET FIXED SINCE ITS NOT FREE TO PLAY	Wednesday, Sep 22nd 8:08AM
254,969,143	Good job Noir!	Wednesday, Sep 22nd 7:47AM
