260,958,240	Game overall isn't terrible but needs serious work to be a top tier app.		Monday, Jan 31st 2:38AM
260,958,226	need to fixs for ocucls 2 make so the thum sticks are used for moving and sapret form the enter buttine it a pain in the mmmm trying to tape a massge		Monday, Jan 31st 2:36AM
260,937,977	Still love 3DX and hope it can improve more! Work hard! <3		Sunday, Jan 30th 10:54AM
260,933,473	Update frequency is ok, the most important thing that needs to be addressed is dev to user communication.		Sunday, Jan 30th 1:06AM
260,931,190	lack of clarity on upcoming update info and release dates, a little too amateurish for my taste		Saturday, Jan 29th 10:16PM
260,927,224	More sex poses		Saturday, Jan 29th 6:33PM
260,920,873	Many bugs and problems discussed still stay left without any answer...		Saturday, Jan 29th 12:29PM
260,912,952	i given the overall communication a 2/5 in rating, just cause you have to go looking for more info, like joining discord, it isn't something that is really throw at you if you play the game.		Saturday, Jan 29th 12:21AM
260,901,974	Oh my god, the fucking pants bug! Why can't the game just figure out if people have clothes on properly! I don't want to see people sucking air in front of fully clothed people!		Friday, Jan 28th 5:46PM
260,883,849	They need to hire more devs instead of just 2. I been in game for almost 6 years and this game feels like I am playing a beta version.		Thursday, Jan 27th 11:35PM
260,877,758	Would be great if there was a way to notify when unread chats have happened in a group chat. More drink options than just a beer bottle. Would be great if a new sex pose didn't start at the mid level speed... it is not realistic... start it at the very lowest speed and allow player to ramp it up.		Thursday, Jan 27th 7:38PM
260,875,997	For the rating of the game I put 4 and a half, for the communication there are things to review. you should make updates smaller but more frequent it will give the feeling of a better monitoring of the game to the players, then from time to time updates larger why not.		Thursday, Jan 27th 6:17PM
260,874,358	Doing a wonderful job		Thursday, Jan 27th 5:40PM
260,863,144	The game is more stable now, but new features for making it more immersive required.		Thursday, Jan 27th 9:47AM
260,862,600	The game is wonderful at the moment and the players really make it worth while to keep playing but a better customization for characters and more options to stand out and be different would be awesome.		Thursday, Jan 27th 9:10AM
260,858,677	For male and male sex there's not cumshot options and I think that would be a great add for the gay community on this game!		Thursday, Jan 27th 2:49AM
260,847,159	I know that the team that works on the game is small. I know they do they best they can. So maybe if there were more ways for the community to help with items in the game, they can work on the bug and stability issues. Then when those are resolved the developers can focus on other things.		Wednesday, Jan 26th 6:38PM
260,845,525	Quite new and having a great experience so far. Great work!		Wednesday, Jan 26th 5:43PM
260,842,602	I miss the feature to copy the profile text to paste it into a translator or to copy/paste links used in the profiles.		Wednesday, Jan 26th 4:18PM
260,836,655	The ability to upload things to the game would be nice. There are quite a few games including SL and IMVU that allow players to have shops where they can sell their creations and I would be interested if that was to happen on 3dxchat. "Sliders for faces" is another thing i would like to see added, the ability to customize independent facial features, such as, lips, eyes, nose. Better makeup options too.		Wednesday, Jan 26th 1:08PM
260,825,928	For awhile I thought game stability was improving but it's been worse the last two months.		Wednesday, Jan 26th 3:26AM
260,819,864	I find that for some time, the game has been evolving well, novelties that had been non-existent for a long time. There are bugs yes... but no more than before. I hope that more novelty will arrive like the possibility of modifying the size of the sexes or their shape (Cyborg, aliens ...)		Tuesday, Jan 25th 10:23PM
260,809,095	Your platform lacks considerably in moderating teams and administrators. To see rooms with themes like incest, pedophilia, slavery or zoophilia open under the pretext of rp, is an aberration. Just because it's "virtual" doesn't mean it's not serious. On the contrary. It seems that there is no morality. It is a shame. On other platforms, these kinds of things would be banned immediately. You have things marked in your TOS, but you have little or no compliance and you are not proactive enough to address these issues.		Tuesday, Jan 25th 5:32PM
260,805,141	I wish you could do upgrade often because sometimes it is 1 -2 in a year :(so said Do more clothes and poses		Tuesday, Jan 25th 3:52PM
260,802,317	Organize contests of creation of clothing for example. Some people know (including me) how to use 3D creation software (Blender for example). This is an idea among others, from my point of view your game has a good base, but a lot of functionality or content could be created. If you want to contact me to deepen the subject, my email is Johann.Hognat@gmail.com Good day to you		Tuesday, Jan 25th 2:08PM
260,798,410	I don't meet crucial bugs, or Disconnections. I wish more player would have 3dx and more room, more RP room, more possibility. To open all direction. The updates could be faster at least monthly updates. Communication: Well... if you are banned. It takes weeks to have a normal answer, from devs. Its annoying, I like the thing, nowadays more GIF comes from upcoming content in the official discord chat. This is good proof that the devs are working, and this way less complaints. I'm not a forum habitant, but Its always good to see if the devs take part in the convesration in forums, at least we know whats in their mind.		Tuesday, Jan 25th 12:13PM

260,795,903	More everyday/normal clothing! Fix bug with underwear disappearing beneath clothes (female) It would be nice to have some more interactive options. I.e. handholding (& whilst walking).	Tuesday, Jan 25th 10:34AM
260,788,779	Came here from Avakin Life. That game is going down hill - a lot of unhappy users. It would be nice to have more women's clothing options, more dance moves. It would also be nice to set the mood of my character and have the mood reflected on my character face.	Tuesday, Jan 25th 12:32AM
260,788,742	I love the updates but please no more bugs after adding new stuff.	Tuesday, Jan 25th 12:30AM
260,780,332	There are clearly other upcoming platforms so in order to compete 3dx needs more updates regularly otherwise it can grow old quick. Opening up poses animation and clothing to the community would be fun. Keep up the good work none the less!	Monday, Jan 24th 8:25PM
260,776,106	There should be community made content available	Monday, Jan 24th 6:51PM
260,775,818	Needs bdsm	Monday, Jan 24th 6:44PM
260,775,731	Needs more bdsm	Monday, Jan 24th 6:41PM
260,773,291	One small content update every three months is boring.	Monday, Jan 24th 5:33PM
260,773,070	there used to be a lot more polls for upcoming content. Was that valuable to developers to gauge demand? I remember there was a loooooong dry spell and nobody knew what devs were working on, and then the next content that was unveiled was lovense and a cage object. Many people were like... "is this a joke....?"	Monday, Jan 24th 5:20PM
260,772,587	how come they still bring useless stuff but not what players ask for	Monday, Jan 24th 5:16PM
260,769,994	If there was no monopoly for 3DXChat the less than poor quality would leave it empty because everybody would chance to an equal words with less bugs even for a higher price.	Monday, Jan 24th 4:18PM
260,769,023	It's the best "adult MMO" I could find and I think I tried all of them. Most of my issues come not from the game itself, but from the community not being social/welcoming enough. Speaking of communication of developers, I've yet to really see any. I am not sure the developer even write anything on Discord other than official announcements.	Monday, Jan 24th 3:57PM
260,767,972	I would like to hear more about what the developers are doing, because outside what is posted on the discord and in the login page of 3dxchat I don't hear anythings of what they are developing currently	Monday, Jan 24th 3:38PM
260,764,731	They should not focus in new feature ou bugfix... They have to do both at the same time. And give us more information of what they do	Monday, Jan 24th 2:44PM
260,762,730	You kinda fell silent when it comes to what you're working on and where you guys are in the process of updating the game. Could be more active and talkative.	Monday, Jan 24th 2:19PM
260,759,015	New player... Amazing game... Don't know why I haven't started sooner!	Monday, Jan 24th 2:02PM
260,758,572	Hello, can we please change the color of the baseball caps please without to have to play with save game ? please :(Monday, Jan 24th 1:53PM
